

The BOR created approximately 100 acres of Jordanelle wetlands. Among habitat structuring for waterfowl and shorebird nesting sites, special consideration will be given to the sandhill crane and western spotted frog.

Reservations

Reservations are available for group-use and individual campsites. Individual campsite reservations may be made from three to 120 days in advance. Group-use reservations may be made one year in advance.

To make a reservation, please call 1(800) 322-3770 from 8:00 a.m. to 5:00 p.m., Monday through Friday. Reservations are not required but are advised. Unreserved sites are available on a first-come, first-served basis.

User Fees

Day-use and camping fees are charged. Additional fees are charged for group-use, boat mooring and reservations.

Guidelines

Please observe these regulations to ensure that everyone's visit is pleasant:

Accidents - Report all accidents or injuries to a park ranger.

Bicycling - Bicycling is permitted on established public roads, parking areas and the Perimeter Trail. Please use marked bicycle routes. Bicycle riding is prohibited within the interior boardwalk or trail system at Rock Cliff. Please secure bicycles to racks provided.

Camping - Camp in designated areas. There is no overflow camping, but camping usually is available in nearby state parks and USDA Forest Service campgrounds. Camping is limited to 14 consecutive days in a 30-day period. Check-out time is 2:00 p.m. Group camping is available at the Rock Cliff

Recreation Site by advance reservation only. Camping or overnight parking in parking areas, day-use areas or any place other than a designated campground is not permitted.

Firearms - Possession or use of firearms, traps or other devices capable of launching a projectile that can immobilize, injure or kill a person or animal, or damage property is prohibited unless the weapon or device is 1) unloaded and packed away to prevent its use, 2) being used for legal pursuit of wildlife or 3) being used by authorized enforcement officers in the performance of official duties.

Fires - Fires are permitted in designated campgrounds with fire grates. Stand-up grills in picnic areas are for charcoal or small wood fires only. Firewood can be purchased at Rock Cliff and Hailstone. Please do not use any firewood from the park area as it is vital to wildlife habitat.

Motorcycles - Motorcycles, motor scooters and motor bikes may be operated on park roads only. No off-road or trail travel is allowed. Operator must possess a valid driver license. Vehicles must display valid state license plates. Off-highway vehicle riding is not permitted in the park.

Parking - Park only in authorized, asphalted spaces. Only two vehicles or a motor-home plus a vehicle are allowed in a campsite. A fee is charged for extra vehicles. They must be parked in a designated lot.

Pets - Pets are allowed in most Utah state parks but should be on a maximum six-foot leash. Seeing Eye dogs are the only animals admitted to park buildings. Pets are not permitted on developed beaches or in lakes and streams. Due to the sensitive nature of Rock Cliff Recreation Site, pets must remain on or within 15 feet of paved surfaces. Leashed pets are allowed on the Perimeter

Trail, except during seasonal closures due to big game migration patterns. For safety and courtesy, please keep pets under control.

Quiet hours - 10:00 p.m. to 7:00 a.m. Please no generators, loud audio devices or other noise disturbances during this time.

Theft - Lock your vehicle and keep valuables out of site. Report all thefts or vandalism to a ranger immediately.

Trail use - The Perimeter Trail is a non-fee trail accessing Hailstone, Rock Cliff and other recreational areas. Remember to obtain a day-use permit to use the reservoir or any park facility.

Jordanelle State Park

 **STATE OF UTAH**
NATURAL RESOURCES
Division of Parks & Recreation

Jordanelle State Park opened June 29, 1995. It offers an array of recreational opportunities near the Wasatch Front. They include camping, picnicking, fishing, boating, water sports, swimming, hiking and mountain biking. Interpretive programs and walks are held periodically.

Special Features

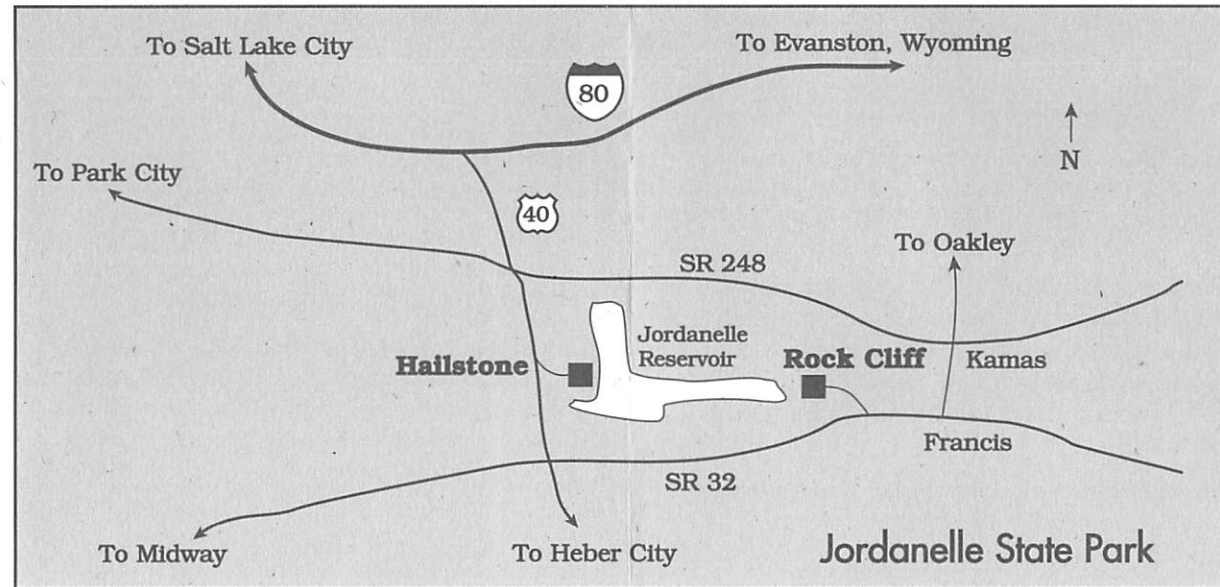

The park consists of Hailstone Recreation Site and Rock Cliff Recreation Site. Each facility is unique.

1. Hailstone Recreation Site - Located between Park City and Heber City on US 40 (exit 8). Day-use facilities include visitor center, children's play area, two boat ramps (one ramp for personal watercraft), three group-use pavilions, 41 day-use cabanas, two minilaundromats, beach house, marina store and restaurant, fish cleaning stations and outdoor amphitheater. The site has three separate camping areas.

- **Keetley Point Campground** - Walk-in only. Facilities include modern rest rooms and 41 tent sites in a scrub oak draw northwest of the park entrance road. Each site has a concrete pad, flat earthen tent pad, an 8-foot aluminum table, stand-up grill and fire pit. Five sites are accessible to disabled campers.

- **McHenry Creek Campground** - Facilities include 42 tent/recreation vehicle sites with no utilities. The campground is sheltered between a scrub oak stand and a quiet, perennial creek. Each site has a concrete pad, 8-foot aluminum table, stand-up grill, fire pit and tent pad. Parking is available for two vehicles or one vehicle with detached trailer. A camp service-center provides modern rest rooms, hot showers, minilaundromat and children's play area.

- **RV Campground** - Facilities include 103 developed campsites overlooking the reservoir. Each site has a concrete pad, an 8-foot

aluminum table, stand-up grill, fire pit, and electric and water hookups. Access is by a paved, pull-through drive or single spur. The developed campground is serviced by two modern rest rooms and one camp-service center with children's play area.

2. Rock Cliff Recreation Site - Located two miles west of Francis on SR-32. Day-use facilities include Nature Center, three modern rest rooms, two group-use pavilions, and three walk-in campgrounds. These pristine sites can be reached by an elevated boardwalk or trail through the aspens. All campgrounds are serviced by two modern rest rooms with hot showers.

Perimeter Trail

Jordanelle Reservoir can be reached by the non-motorized Perimeter Trail connecting Hailstone and Rock Cliff. The trail also allows hikers, mountain bikers, equestrians and cross-country skiers to access Historic Union Pacific Rail Trail State Park.

Access from outside Hailstone is by the county frontage road north of the Mayflower exit and parallel to US 40. Access from Rock Cliff is off the main park road. Vehicular access from Rock Cliff requires a day-use permit. Those bicycling through will not be charged. A day-use permit is required for recreational use of the reservoir.

Boating

A vessel launching and retrieval facility is at Hailstone. An eight-lane boat ramp is available for recreation vessel use with a separate three-lane ramp for personal watercraft users. Limited access is available at Rock Cliff due to shallow water and lack of trailer parking.

All Utah boating rules and regulations are enforced. Please read *Highlights from Utah Boating Laws and Rules* available at visitor contact stations. Remember:

- Do not operate a vessel above a wakeless speed within 150 feet of another vessel or person in the water.

- A Coast Guard approved personal flotation device is required for each person aboard a vessel.

- *Boating safely is no accident.* Be an informed operator.

For safety reasons, the Utah Division of Parks and Recreation imposes a 300-vessel carrying capacity on the reservoir at any one time. If the reservoir has reached capacity, please visit other boating parks in the area. Deer Creek and Rockport state parks offer fishing, sailing, wind surfing, swimming, boating and waterskiing. Campers and golfers will enjoy Wasatch Mountain State Park with its 27-hole golf course.

Fishing

Jordanelle Reservoir provides excellent fishing for rainbow trout, cutthroat trout and smallmouth bass. A population of brown trout, produced in the Provo River, is expanding in the reservoir. This mix of species provides an excellent sport fishery.

Jordanelle Reservoir

Jordanelle Reservoir is a future water supply for Utah. In addition to industrial, municipal and irrigation water, the reservoir provides critical wildlife habitat and recreation opportunities. It is the largest human-made impoundment within the Bonneville unit of the Central Utah Project.

The reservoir can store 372,000 acre-feet of water (one acre-foot of water will sustain a family of four for one year). At full capacity, it will cover a surface area of 3,300 acres.

Central Utah Project

Jordanelle Reservoir and Dam are a vital link in the Central Utah Project. The project, planned and constructed by the USDI Bureau of Reclamation, is the largest water development project in Utah history.
